

CERTIFICATE

Number: 2213154

The management system of the organizations and locations mentioned on the addendum belonging to:

SPIE Nederland B.V.

Huifakkerstraat 15
4815 PN Breda
The Netherlands

including the implementation meets the requirements of the standard:

ISO 9001:2015

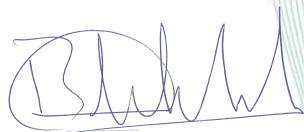

Scope:

Providing technical solutions in the disciplines of process technique, mechanical and electrical technique, automation & IT, civil technique, (water) soil remediation, concrete- and water constructions for the industry (incl. engineering chemical tank installations), utilities and (Rail) infra structure, including inspections in explosive atmospheres civil technique for (Rail)infra structure, including design, construction, management, maintenance of underground and above-ground networks regarding telecommunications, cable TV (CAI), electricity, gas, water and sewerage, including associated secondary activities.

Certificate expiry date: 23 April 2026
Certificate effective date: 23 April 2023
Certified since*: 23 April 1993

This certificate is valid for the organizations and locations mentioned on the addendum.

DEKRA Certification B.V.

B.T.M. Holtus
Managing Director

S. Dieperink
Certification Manager

© Integral publication of this certificate and adjoining reports is allowed.

* against this certifiable standard / possibly by another certification body.

ADDENDUM

To certificate: 2213154

The management system of the organizations and locations) of:

SPIE Nederland B.V.

Huifakkerstraat 15
4815 PN Breda
The Netherlands

Certified organizations and locations:

Different scope

SPIE Nederland B.V.
Huifakkerstraat 15
4815 PN Breda

Providing technical solutions in the disciplines of process technique, mechanical and electrical technique, automation & IT, civil technique, (water) soil remediation, concrete- and water constructions for the industry (Incl. engineering chemical tank installations), utilities and (Rail) infra structure. including inspections in explosive atmospheres civil technique for (Rail)infra structure, including design, construction, management, maintenance of underground and above-ground networks regarding telecommunications, cable TV (CAI), electricity, gas, water and sewerage, including associated secondary activities.
